

CORDELL HULL LOCK AND DAM

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG.

Cordell Hull Lock and Dam

Cordell Hull Lock and Dam is located on the Cumberland River at mile marker 313.5, about five miles upstream of Carthage, Tennessee.

Construction on the project began in 1963 and was completed in 1973.

Rising 87 feet above the streambed, the combination earth fill and concrete-gravity dam is 1,306 feet long with a hydroelectric power generating plant. Average annual output is 350 million kilowatt hours.
